

# ADJUSTABLE RATCHETING PLASTIC ROD HOLDER!

## PLASTIC ROD HOLDER

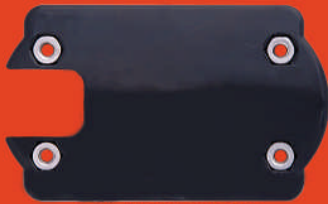

Getting more rods in the water helps you to catch more fish. It's even easier with the New Bert's Custom Tackle Plastic Rod Holder that works like our award winning heavy duty metal ratcheting rod holder. "Built Bert's tough" made of Lexan and stainless steel components.

## RATCHETING ROD HOLDER—A GREAT FEATURE

You can set the 5 vertical positions by pressing the release button and moving it into your desired position. When you get a fish on you pull up on your rod with a one hand motion to set the hook and pull the rod out of

**COMING SOON!**

## UNIVERSAL MOUNTING

You can Slide your Bert's Custom Tackle Plastic Rod Holder into Bert's Custom Tackle track or through-bolt anywhere on your boat. The through bolt mounting feature of our 8-position posi-lock base is molded to allow the ratcheting rodholder to be mounted on the top or the side. This feature works well where a permanent mount may be more appropriate such as Jon Boats, Guide Boats or boats that feature a "Sport Track" option. Coming soon--look for our rail clamps and flush mounts!
